ABOUT THIS STUDENT MANUAL

Welcome to the Curriculum Information Document Online System (CIDOS) User Manual.

This handy user manual will guide you to use the CIDOS in your learning successfully. CIDOS is a web-based solution designed specifically for efficient and effective control over curriculum document inventory, teaching and learning (T&L) materials, and knowledge sharing. It is a tool that supports the T&L via the Internet between lecturers and students.

CIDOS will help you;

- reach curriculum document.
- access T&L materials anytime and anywhere through internet connection.
- engage with different learning styles and unique educational environment.
- improved collaboration and interactivity among friends and lecturers.
- monitor your learning progress effectively.

This user manual only use example of resources and activities as a guidance to use CIDOS easily. The real one depends on your lecturers.

Wishing you the very best!
